

## PROGRAMME

### Workshop on “Model application for wetlands hydrology and hydraulics” 1-3.04.2004 Białystok/ Narew National Park

#### 01 April 2004 - Thursday

- 10.00 Departure from Warsaw  
13.00 Visit to the Narew National Park  
Presentation of the Narew National Park by Director Bogusław Deptuła  
Sightseeing of the Narew National Park  
17.00 Welcome Dinner “Karczma Rzym”, Kiermusy

#### 02 April 2004 - Friday

- 8.00 Breakfast  
9.00 **Morning Session**  
1. Introductory lecture  
2. Roger Moussa - “Criteria for the choice of flood routing methods in natural channels with overbank flow”  
3. Philip O’Kane - “Application of an integrated 3-dimensional hydrological hydraulic model, coupled with an high resolution digital elevation model, on a wetland area in the south-west of Ireland.”  
4. Jarosław Chormański, Dorota Mirosław-Świątek - “Remote sensing limitation in flood modelling verification in wetlands”  
10.30 Coffee break  
11.00 Sightseeing of the Narew National Park (canoes)  
14.00 Lunch - “Atlanta” Jeżewo Stare  
15.00 **Afternoon Session**  
5. Jarosław Napiórkowski, Paweł Rowiński, Tomasz Dysarz - “Transport of pollution in the rivers flowing through wetland areas”  
6. Janusz Kubrak, Tomasz Okruszko, Dorota Mirosława-Świątek, Ignacy Kardel - “Application of an 1-dimensional hydrological hydraulic model, coupled with digital elevation model for modelling of riparian wetlands of the Upper Narew River”  
7. Eric Querner - “The use of SIMGRO in hydrological modelling of wetlands”  
8. Alicja Ślesicka „?”  
17:00 Coffee break  
17.30 Discussion  
20.00 Diner “Dworek Czarneckiego”

#### 03 April 2004 - Saturday

- 8.00 Breakfast  
9.00 **Morning session**  
9. Joan Severyns – “Ecohydrology of a groundwater-dependent Alder carr”  
10. Katinka Koll – “Consideration of bank vegetation on bed-load transport”  
10.00 Final Discussion  
12:00 Lunch  
12.30 Departure to Warsaw
